

Date of Review/Recommendation: May 29, 2009

Water Body Under Evaluation:

Water Body ID #: 1686
Name: Tributary to Busch Creek (Class C)
Length of Segment: 3 miles
County(ies): Franklin

Use Attainability Analysis (UAA) Study:

UAA ID #: 0810
Submitter: MEC Water Resources
Date(s) Conducted: October 11, 2007
Date Received: December 1, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
☐ 3-Non-Remedial, Human Caused Condition.
☐ 4-Hydrologic Modifications.
☐ 5-Natural Physical Features.
☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in October 2007 and no WBCR was observed. No interviews were conducted during the survey. Graffiti and footprints adjacent to the stream were documented at site 1. A public comment received in May 2009 also cited playing and wading.

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The stream did not meet the depth criteria at any of the 3 sites evaluated. Due to not meeting the depth criteria and no evidence of existing use, the committee recommends the WBCR use designation be removed. Due to evidence of secondary contact (footprints) and the comment received, the committee recommends Secondary Contact Recreation be assigned.

Committee Recommendation:

☐ Add Use ☐ Retain Use ☒ Remove Use
☐ Modify Use ☐ Inconclusive
